Plyform

Morris Contract Furniture aim to bring you furniture at a lower price.... without compromising on quality.

# α | Alpha-S

Designed by Morris

The Alpha chair has a tall, subtly tapered back shape and a choice of two stackable frames: square (S) or round (R). The round frame version is shown on page 4.

**Available finishes:** standard laminates, digitally printed laminates and veneers (see inside back cover for details).

ALPHA-S

Height: 875 mm  
Seat height: 470 mm  
Width: 425 mm  
Depth: 540 mm

# α Alpha-SH

Designed by Morris

Like its companion chair, the Alpha high stool has a subtle taper and gentle curve in its back shape.

**Available finishes:** standard laminates, digitally printed laminates and veneers (see inside back cover for details).

ALPHA-SH

Height: 985 mm  
Seat height: 765 mm  
Width: 410 mm  
Depth: 500 mm

# α Alpha-RH

Designed by Morris

Alpha high stools are available with a choice of frame: boldly geometric square (SH) or a curved round tube construction (RH).

**Available finishes:** standard laminates, digitally printed laminates and veneers (see inside back cover for details).

ALPHA-RH

Height: 975 mm  
Seat height: 750 mm  
Width: 500 mm  
Depth: 505 mm

## α | Alpha-R

Designed by Morris

The characteristic tall, tapered Alpha back shape is complemented by the gentle curves of a rounded, stackable frame.

**Available finishes:** standard laminates, digitally printed laminates and veneers (see inside back cover for details).

ALPHA-R

Height: 850 mm  
Seat height: 455 mm  
Width: 590 mm  
Depth: 520 mm

Image shows Beta-R chairs with cut-out detail (see pages 7 and 20).

# β | Beta-S

Designed by Morris

The back shape of the Beta chair is shorter than that of Alpha and boasts a bolder curve with arced front detail.

**Available finishes:** standard laminates, digitally printed laminates and veneers (see inside back cover for details).

BETA-S

Height: 835 mm  
Seat height: 465 mm  
Width: 425 mm  
Depth: 545 mm

# β | Beta-R

Designed by Morris

The compact proportions of the Beta chair are complemented by a square frame (S) or round (R). Both variations of the chair are stackable.

**Available finishes:** standard laminates, digitally printed laminates and veneers (see inside back cover for details).

BETA-R

Height: 825 mm  
Seat height: 455 mm  
Width: 590 mm  
Depth: 525 mm

# β | Beta-SH

Designed by Morris

The Beta high stool has the same bold curves as the chair and a generously cut back shape.

**Available finishes:** standard laminates, digitally printed laminates and veneers (see inside back cover for details).

BETA-SH

Height: 1060 mm  
Seat height: 765 mm  
Width: 410 mm  
Depth: 505 mm

# β | Beta-RH

Designed by Morris

To complement the Beta chair design, the high stools are also available with a square (SH) or round (RH) frame.

**Available finishes:** standard laminates, digitally printed laminates and veneers (see inside back cover for details).

BETA-RH

Height: 1045 mm  
Seat height: 755 mm  
Width: 500 mm  
Depth: 540 mm

Plyform by Morris combines clean curves and elegant lines to create furniture of modern simplicity, timeless style and enduring quality.

Image shows Alpha-S chairs (see page 1).

## γ | Gamma-S

Designed by Morris

The Gamma chair and high stool have a distinctive, arcing back shape, understated tapers and compact form.

**Available finishes:** natural wood veneers and reconstituted wood veneers (see inside back cover for details).

### GAMMA-S

Height: 840 mm  
 Seat height: 465 mm  
 Width: 425 mm  
 Depth: 540 mm

## γ | Gamma-R

Designed by Morris

The pronounced arc shape of the Gamma chair can be complemented by a boldly angled square frame (S) or a more gentle round one (R). Both stack.

**Available finishes:** natural wood veneers and reconstituted wood veneers (see inside back cover for details).

### GAMMA-R

Height: 820 mm  
 Seat height: 460 mm  
 Width: 590 mm  
 Depth: 505 mm

# Gamma-SH

Designed by Morris

The Gamma chair's characteristic shape lends itself to a corresponding high stool design with a neatly cropped back.

**Available finishes:** natural wood veneers and reconstituted wood veneers (see inside back cover for details).

GAMMA-SH

Height:	995 mm
Seat height:	765 mm
Width:	410 mm
Depth:	505 mm

# Gamma-RH

Designed by Morris

The Gamma high stool with its eye-catching back detail comes in a choice of compatible frame styles: square (SH) or round (RH).

**Available finishes:** natural wood veneers and reconstituted wood veneers (see inside back cover for details).

GAMMA-RH

Height:	990 mm
Seat height:	750 mm
Width:	500 mm
Depth:	505 mm

Image shows Delta-H high stools.

# δ | Delta

Designed by Morris

The Delta chair and high stool combine soft, rolling curves with a striking and boldly angled base.

**Available finishes:** standard laminates, digitally printed laminates and veneers (see inside back cover for details).

## DELTA

Height: 845 mm  
Seat height: 475 mm  
Width: 485 mm  
Depth: 525 mm

## DELTA-H

Height: 1040 mm  
Seat height: 755 mm  
Width: 505 mm  
Depth: 525 mm

# Think Colour!

Different coloured laminates can bring your chairs to life

The plyform chairs in this brochure are all available in a variety of laminate finishes to give an almost limitless array of options. Shells can be laminated with a single colour or woodgrain, a different colour on each side, or a combination of colour on one side and woodgrain on the other. See inside back cover for details of laminate options.

# Digital Printing

Printed laminate shells using the latest technology

Another option is to have the shells finished in a printed laminate. Any design- digital photos, scanned images, logos- can be applied using state of the art digital printing techniques for a completely individual product.

# Cut-out Shells

Customised cut-outs and bespoke shapes

Plyform chairs and high stools can be manufactured with customised cut-out details in the back, bringing an individual twist to the design. Each of the existing shell profiles shown in this brochure can be used as the basis for an entirely bespoke new shape, unique to your order.

# Laminates

Colour options and woodgrains

A range of laminate finishes can be viewed online at [www.abetlaminati.com](http://www.abetlaminati.com) and should be chosen from the Solid Colour and Legni ranges- availability must be confirmed before an order is placed. Please note that we do not recommend the use of metallic laminates on our furniture as these can scratch too easily.

# Veneers

Natural and reconstituted wood

A wide selection of veneer finishes, in both natural and reconstituted wood, is available as an alternative to the various laminate options. Please contact the Morris sales office for further details and sample cards (call 01360 311 555 or email [sales@morrisfurniture.co.uk](mailto:sales@morrisfurniture.co.uk)).

# Upholstery

A softer option for added comfort

All of the plyform chairs and high stools in this brochure can be supplied with a seat pad for added comfort. The pad is upholstered directly onto the shell, which prevents dirt being trapped and makes it easier to keep clean. The seat pad can be covered in any contract standard fabric, leather or vinyl - there is a vast selection to choose from, ensuring you get the finish which is just right for your furniture.
